## When/where

Friday, October 18, 2019

8:45 a.m. – 12:30 p.m.

The Pierre hotel

New York, NY

# The Event 201 scenario

*Event 201 simulates an outbreak of a novel zoonotic coronavirus transmitted from bats to pigs to people that eventually becomes efficiently transmissible from person to person, leading to a severe pandemic. The pathogen and the disease it causes are modeled largely on SARS, but it is more transmissible in the community setting by people with mild symptoms.*

*The disease starts in pig farms in Brazil, quietly and slowly at first, but then it starts to spread more rapidly in healthcare settings. When it starts to spread efficiently from person to person in the low-income, densely packed neighborhoods of some of the megacities in South America, the epidemic explodes. It is first exported by air travel to Portugal, the United States, and China and then to many other countries. Although at first some countries are able to control it, it continues to spread and be reintroduced, and eventually no country can maintain control.*

*There is no possibility of a vaccine being available in the first year. There is a fictional antiviral drug that can help the sick but not significantly limit spread of the disease.*

*Since the whole human population is susceptible, during the initial months of the pandemic, the cumulative number of cases increases exponentially, doubling every week. And as the cases and deaths accumulate, the economic and societal consequences become increasingly severe.*

*The scenario ends at the 18-month point, with 65 million deaths. The pandemic is beginning to slow due to the decreasing number of susceptible people. The pandemic will continue at some rate until there is an effective vaccine or until 80-90 % of the global population has been exposed. From that point on, it is likely to be an endemic childhood disease.*

## *About the Event 201 exercise*

*Event 201 was a 3.5-hour pandemic tabletop exercise that simulated a series of dramatic, scenario-based facilitated discussions, confronting difficult, true-to-life dilemmas associated with response to a hypothetical, but scientifically plausible, pandemic. 15 global business, government, and public health leaders were players in the simulation exercise that highlighted unresolved real-world*

policy and economic issues that could be solved with sufficient political will, financial investment, and attention now and in the future.

The exercise consisted of pre-recorded news broadcasts, live “staff” briefings, and moderated discussions on specific topics. These issues were carefully designed in a compelling narrative that educated the participants and the audience.

The Johns Hopkins Center for Health Security, World Economic Forum, and Bill & Melinda Gates Foundation jointly propose these [recommendations](#).

## Purpose

In recent years, the world has seen a growing number of epidemic events, amounting to approximately 200 events annually. These events are increasing, and they are disruptive to health, economies, and society. Managing these events already strains global capacity, even absent a pandemic threat. Experts agree that it is only a matter of time before one of these epidemics becomes global—a pandemic with potentially catastrophic consequences. A severe pandemic, which becomes “Event 201,” would require reliable cooperation among several industries, national governments, and key international institutions.

Recent economic studies show that pandemics will be the cause of an average annual economic loss of 0.7% of global GDP—or \$570 billion. The players' responses to the scenario illuminated the need for cooperation among industry, national governments, key international institutions, and civil society, to avoid the catastrophic consequences that could arise from a large-scale pandemic.

Similar to the Center's 3 previous exercises—Clade X, Dark Winter, and Atlantic Storm—Event 201 aimed to educate senior leaders at the highest level of US and international governments and leaders in global industries.

It is also a tool to inform members of the policy and preparedness communities and the general public. This is distinct from many other forms of simulation exercises that test protocols or technical policies of a specific organization. Exercises similar to Event 201 are a particularly effective way to help policymakers gain a fuller understanding of the urgent challenges they could face in a dynamic, real-world crisis.

## Recommendations

The next severe pandemic will not only cause great illness and loss of life but could also trigger major cascading economic and societal consequences that could contribute greatly to global impact and

suffering. The Event 201 pandemic exercise, conducted on October 18, 2019, vividly demonstrated a number of these important gaps in pandemic preparedness as well as some of the elements of the solutions between the public and private sectors that will be needed to fill them. The Johns Hopkins Center for Health Security, World Economic Forum, and Bill & Melinda Gates Foundation jointly propose these recommendations.

## When/where

Friday, October 18, 2019

8:45 a.m. – 12:30 p.m.

The Pierre hotel

New York, NY

## Audience

An invitation-only audience of nearly 130 people attended the exercises, and a livestream of the event was available to everyone. Video coverage is available [here](#).

## Exercise team

Eric Toner, MD, is the exercise team lead from the Johns Hopkins Center for Health Security. Crystal Watson, DrPH, MPH and Tara Kirk Sell, PhD, MA are co-leads from the Johns Hopkins Center for Health Security. Ryan Morhard, JD, is the exercise lead from the World Economic Forum, and Jeffrey French is the exercise lead for the Bill and Melinda Gates Foundation.

Exercise team members are Tom Inglesby, MD; Anita Cicero, JD; Randy Larsen, USAF (retired); Caitlin Rivers, PhD, MPH; Diane Meyer, RN, MPH; Matthew Shearer, MPH; Matthew Watson; Richard Bruns, PhD; Jackie Fox; Andrea Lapp; Margaret Miller; Carol Miller; and Julia Cizek.

Event 201 was supported by funding from the Open Philanthropy Project.

# WCoronavirus 2019-nCoV

## May Have Been Genetically Engineered

Source: [www.express.co.uk](http://www.express.co.uk)

Posted on April 7th 2020

<https://interesnews.com/planet/coronavirus-shock-claim-virus-genetically-engineered-for-efficient-spreading-in-humans.html>

*CORONAVIRUS may have been genetically engineered for the “efficient spreading in the human population,” a bombshell new study has claimed.*

*A study released by Chinese scientists last week found the origin of coronavirus could have come from the Wuhan Institute of Virology, a level four biosafety laboratory 12km from the epicentre of the outbreak.*

Now, a new investigation, titled “Coronavirus 2019-nCoV contains a furin-like cleavage site absent in CoV of the same clade,” suggests it has been genetically engineered too.

Published on ScienceDirect this month, the paper reads: “In 2019, a new coronavirus (2019-nCoV) infecting humans has emerged in Wuhan, China.

“Its genome has been sequenced and the genomic information promptly released.

“Despite a high similarity with the genome sequence of SARS-CoV, we identified a peculiar furin-like cleavage site of the 2019-nCoV, lacking in the other SARS-like CoVs.

For efficient spreading in the human population compared to other coronaviruses

## Study

“In this article, we discuss the possible functional consequences of this cleavage site in the viral cycle, pathogenicity and its potential implication in the development of antivirals.”

Furin is a “highly expressed” protein found in the lungs of humans that could have been used to activate a virus that previously could have only been passed between animals.

The experts believe this “peculiar furin” is an anomaly and could be used to “successfully exploit” enzymes that innate immunity in humans.

The paper goes on to explain how scientist have not seen anything like this in previous strains.

But, it was not just a single anomaly.

It adds: “Before the emergence of the 2019-nCoV, this important feature was not observed in other coronaviruses.

“Strikingly, the 2019-nCoV sequence contains 12 additional nucleotides upstream of the single cleavage site.”

The paper suggests that this part of the DNA chain has been tampered with for “gain-of-function to the 2019-nCoV for efficient spreading in the human population compared to other coronaviruses.”

*It adds: "This possibly illustrates a convergent evolution pathway between unrelated CoVs."*

*The paper continues: "Obviously much more work is needed to demonstrate experimentally our assertion, but the inhibition of such processing enzymes may represent a potential antiviral strategy."*

*China first alerted the world to COVID-19 on December 31, 2019, but many argued the government was lying about the true seriousness of the outbreak amid inconsistencies on certain details.*

*Coronavirus appears to have originated from a Wuhan seafood market where wild animals, including bats and snakes, are traded and consumed.*

*But, the bats carrying the disease were originally found in the Yunnan or Zhejiang province, more than 900km away from the seafood market.*

## WARNING =

TURN YOUR EYES TOWARD MEMPHIS (EGYPT),  
FOR OUT OF IT SHALL COME THE **GREAT  
CONFUSION!**

THE AUTHOR OF CONFUSION IS EVEN NOW  
MARSHALLING HIS FORCES FOR THIS  
**GREAT CONFUSION!**

HE IS GATHERING HIS FORCES FROM A  
GREAT NATION AND **EASTERN NATIONS**,  
FRIENDS THAT WILL JOIN WITH HIM.

SO **SUDDEN** WILL BE THE **GREAT CON-**  
**FUSION**, THAT IT WILL CAUSE A **MIGHTY**  
**WIDENING OF THE EYES** OF THOSE

WHO HAVE NOT DISCERNED THE SIGNS  
OF THE TIMES. BUT BE **YE** NOT DECEIVED/  
**BE PREPARED!** AND BE NOT DECEIVED

BY THE **GREAT SOCIETY**, FOR IT **WILL**  
COME TO TRAVAIL AND THEN BRING FORTH  
THE **GREAT CONFUSION!**  
**BE PREPARED!**

EVEN NOW, THE SKIES ARE **RED**,  
**RED** WITH WARNING, AND **BLACK, BLACK**  
WITH CLOUDS GATHERING FOR THE  
**GREAT CONFUSION** WHICH IS **ALMOST**  
**UPON YOU!!**

**(Prophecy above from the Lord through Virginia Brandt Berg in 1965)**

**So even with delays, God always arrives on time. It took 55 years for this prophecy of the Great Confusion, and the beginning of the New world Government to begin to be fulfilled at the beginning of 2020 with Covid-19 World crisis, planned and executed by the elite of the Illuminati or witch Masons, such as the documents of the Event 201 -carried out in New York 2 months before they released the pandemic in Wuhan, China themselves- show it.**

**The most plausible interpretation of the prophecy received by Virginia Brandt is that **God calls this group of Illuminati sorcerers MENPHIS**, due to the rite of consecration to their wickedness performed by their high priests. **The black clouds could mean the Islamic Religion**, and **the red skies, the Communist Religion**, that are taking over the whole world. ¡Hallelujah, because our Jesus will come back for us right after He will allow the Antichrist to rule for seven years!**

## **THE RITE OF MENPHIS- EGYPT**

<https://illuminatinuevoorden.blogspot.com/2014/03/misraim-menfis-secretos-de-la-masoneria.html>

**The Memphis Rite claims to be a Synthesis of All the Rites of Witchcraft.**

The rites of the elder sorcerers, motivated by personal and temporal interests of their members, reunited or unified the different "High Degrees" (small Masonic systems with strong enchanting connotations) These degrees are conferred in solemn general ceremonies. The "brothers" who receive their new degree are given the keys in the form of words, signs and touches, and some are received with a rite of passage. The Memphis-Misraïm High Degrees scale is the one used

today. The first 33 degrees are identical to those practiced by the Old and Accepted Scottish Rite. The specificities of the Egyptian rites appear only after the 33rd Mason degree.

## History of the Memphis Rite Egypt or Memphis-Misraim

**The Rite of the Perfect Initiates of Egypt, (Lyon, 1785)** probably from Crata Repoa, counts seven degrees (Perfect Master, Chosen Perfect, Minor, Perfect Architect, initiated in Egypt).

**The Rite of Sophisiens, (Paris, 1801)** has three classes (aspirants, initiates, members of the great mysteries).

**The Rite of Misraim, or Egypt (1811)** Old Scottish witch rite. It accommodated many degrees forgotten by other rites. It was actually implanted in Paris in 1814.

**The Memphis Rite (1838)** brings together the Freemasons of the "Grand Orient of France", and follows the example of the Egyptian rite in 1849 by establishing 92 degrees.

**Until 1881**, the Rites of Memphis and Misraïm advanced in parallel and in a very specifically concerted way. These two Rites are the heirs and depositaries of the witchcraft or Obediences of the Initiates of the eighteenth century. The 95 degrees of the Memphis-Misraïm Rite are considered "a hallway, where the old Masonic degrees rest", and have a maximum scale of 90 degrees.

**In 1947 the high sorcerers returned to the ancient oriental rite of Memphis or Filaletes.**

**In 1959 this was officially merged into a supreme secret council held by the Masonic orders of Memphis and Misraim.**

**In 1.963 it was again confirmed by them as the ancient and primitive rite of Memphis Misraim.**
