

COME OUT FROM AMONG TFI - Prophecy

(Jesus speaking:)

The Trunk of David has been split in two! Seven years ago it was already broken in two due to Maria and Peter's disobedience, as they parted from the Words of My anointed David! They have decided their sad destiny by parting from the Revolution and being one more church. Pray for them, have mercy on them, have pity on them, as they will suffer much desolation and sadness; due to their parting from the Trunk of David. They will receive a great and sad reward, while My sad, weak and broken Children of David that have decided to be born again in the only Trunk of David, not in Maria and Peter's trunk, but in David's, will be born again and will make the parting from now on.

It's necessary that today you make the break, children, make the break today, come out from among TFI today, August 2017. Make the parting, make the break. Today it's the day of crying "Revolution!" without TFI, The Revolution of TCO, the Revolution of Jesus that will be born and bear fruit as I have promised. And I will fulfill what has been said to Maria and Peter, in spite of them I will fulfill it, because I am God, and I fulfill My Word, in spite of the disobedience of My children. I will fulfill that you will become green again as never before, you will grow as a strong tree, a very strong one!

That tree will become a dwarf, and you will be those big, tall, and giant trees of one hundred and eighty meters that will grow in only a few years to bear lots of fruit all over the Earth. The Earth will see you as if you were the Heavenly City. They will see you growing, and you will grow and reproduce, and I will multiply you with the blessing of My Holy Ghost. You will see it. You have my blessing.

Take that option right away, cry to the four winds of TFI that you have separated, because today is the day to cry, "Come out from among them!" You have separated from them. The Trunk was separated by them seven years ago, and today you simply make the decision of growing only in the Trunk of David, because that other trunk will wither completely, due to having made the wrong decision. You will grow and become green again, but you will grow in humility, and you will only cry this clamour of separation between the ranks of TFI. You will not cry to the others; they will not understand.

You will cry “¡Revolution for Jesus!” to the whole world, but you will cry “¡Come out from among them!” only between TFI. It’s a silent exit for the world. It’s a very clear exit for you with meekness, and simplicity, esteeming others better than yourselves.

You are the ones that will be born again. You are being born due to the decision of splitting, and I will revive you, I will multiply you, I will make you grow as never before, my children. You are the Children of David separated from the churches forever and ever, as I’ve always told you. My precious children. (Tongues) You will be born, you will grow, you will multiply, and bear fruit abundantly. And so I predict it to you, and I will accompany you.

You will grow as a giant tree. Right now it is as if it were cut and pointed, but I will turn you green again and you will see how I will make you grow, multiply and bear lots and lots of fruit, because your roots are the Words of David, the Words of the Good News that I gave you until the Offensive of 2008.

I love you, I love you My Children of David! I love you! Just take the option, and the rest will come.

(Prophecy received by Andrés Nueva Vida on August 6th 2017, and addressed to the brethren who still believe in their hearts that the Words of David are the Words of God)

VISION OF THE TRUNK SPLIT IN TWO ALONG WITH ITS ROOTS

While I was receiving the previous prophecy, I had received before in my mind a trunk split in two. It was a big leafy tree of five meters tall, and it was broken in the middle in the trunk, but it left all the leafy part of the tree to the right of the trunk, and cracked the main trunk in two all the way down to the roots themselves, breaking them also in two, one group of abundant roots to the left, and the small trunk also to the left. And the big trunk with all the branches to the right of the crack, and with less than half of the roots to the right.

The Lord then gave me the interpretation in my mind at the same time, of how that right part of the trunk meant that Mama and Peter had uprooted practically all the brethren that followed them, making the trunk part in two, along with the root, and leaving the little root that was left for them -less than half-, and that was the root of only the Bible and a few Mo Letters, leaving the rest of most of Dad's Letters and the GNs that they themselves had written, as a discarded root, and the other half of the trunk that was also discarded to the left, broken and divided from the other part in a vertical partition.

The left trunk was the Trunk of David, and the right trunk, the trunk of TFI with all its foliage and bunch of branches and leaves that followed them. Thank you Lord!
Thank you Jesus!
