1. The Importance of Prayer

(Jesus:) We are moving beyond the days of natural abilities. ***A person who has mastered the art of bringing his requests to Me, and then patiently and praisefully waiting for Me to work, is going to become infinitely more valuable in any sphere of My service than one who is naturally gifted for certain tasks.***

My work must be done first and foremost in the spirit--through *spending time with Me in the Word and prayer*... to the point that [My power] governs your priorities, decisions, and mindset . Only I can make up the difference. **You must have My miracle-working power, otherwise everything you do will fall short.** This is the crux of the matter.

The arm of the flesh is never long enough **to reach around the world to help** someone in need, but **with just a few desperate, fervent words of prayer you can go anywhere and do anything.** Your reach is limitless.

Grasp tight to God and don't let go until you get the blessing--not just the answer to your prayer or the victory in your situation, **but the hidden extras too. Don't let go until you have it all.**

[Prayer] is your time of spiritual war. It is the time when great progress is made in every area that you take time to focus on. It is a time when wonderful things happen in the spirit. Tremendous and awesome things are made possible because of this time you spend in prayer. ... **Setting this time aside is a sacrifice. Stirring yourself up in the spirit takes effort.** But each bit of spiritual effort that you put into prayer is multiplied many times over.

If you don't pray, you have no power, no answers, no miracles, no supernatural intervention. Prayer is the "on" switch for every spiritual action and intervention in your life. **Without prayer there would be no release of power,** no spiritual energy, no action, no accomplishments, no miracles.

Prayer is action. It's the most effective way of getting anything accomplished...the more time you spend in prayer asking My hand to move in the ways that it needs to move in order to accomplish My will, the more effective you will be. It will be time well spent.

More medals have been handed out in Heaven to those who have fought on their knees than have been given to those who have fought in all of man's wars.

There is nothing complicated about prayer. **All you have to do is believe. That's the condition to praying prayers that get results and see miracles.**

Prayer does not fit us for greater works; **prayer is the greater work.**

If God is going to do it, it has to be by prayer.

The secret to **success** and accomplishment in your life for the Lord is **praying without ceasing.**

Every miracle begins with prayer. Every victory begins with prayer. **Every success begins with prayer.** Everything worthwhile begins with prayer.

Give Me room to work, because I need lots of space for the big miracles that I want to start sending your way!... Nothing is a greater compliment of your trust and dependence on Me than *expecting Me to do the impossible*, and that kind of faith *is the perfect platform for miracles. Nothing is too hard for Me. Nothing is too difficult or too taxing for My divine resources...In fact, I won't even break a sweat.*

Make prayer your main goal every day. At the end of your day, when you are tallying up what you have done with your life, **prayer should be at the top of this list.** Did you pray for your work, your children, your friends and loved ones, the world around you, and those in power? **If so, you have done your best for Me, and have put Me in control.**

Prayer is the best use of your time ever! Of course, that doesn't mean that all you should ever do is pray--you have to also **put feet to your prayers.** But ...**Prayer is a part of your job** as a professional disciple. It's not an extra or just something to do if you have time. **It's fundamental and central to your life and work,** and without it you won't get very far... **It should be part of your daily routine, and be considered work** just as much as your other work. Effective intercessory prayer takes focus, concentration, and desperation. It's spiritually taxing, and sometimes physically taxing too...***In fact, prayer is the best part of your job, because it's the part where you put things into My hands and where you give Me***

a chance to work and to show My power......because without committing things to prayer you have to do them on your own, and that's a serious disadvantage.

I'm the Boss, and you work for Me; but I've also made you a partner. With that partnership comes certain privileges. One of your highest privileges is that of sitting at ***the conference table of prayer with Me*** at any time you like, knowing that you will walk away from that table a step closer to your answer, solution, or accomplishment.

Your prayer life is your profession...one of the very most important ones. Are you acting like a professional when in prayer? Do you **give it the same care, attention, precision, determination and focus** as you do your other professions? Are you a professional?

I love all kinds of prayers, and each has its time and place. **The variety pleases Me** and it shows Me that you're desperate enough to try anything to get the results necessary. It's not that I'm unwilling to give the answers, but **it takes that desperation of spirit to release the power.**

Sometimes I hold you in My arms in our bed of love as you pour out your heart to Me in prayer. Other times we sit on a bench casually enjoying the view as you express the need. And yet other times we're in a business conference, papers spread over the table, going over the details together as you present the situation and ask Me to intervene in the way I know is best.

If you knew how effective and efficient prayer was, you'd hardly do anything else. Prayer opens doors that cannot be opened otherwise, breaks chains that would be impossible for human strength to break, removes the most daunting obstacles, delivers the most well-guarded prisoners from Satan's clutches, and causes miracles to become commonplace occurrences.

(Peter:) Prayer is for those who know that answers are coming, and act like they believe it. What kind of prayer warrior are you?

2. **Proactive Prayer**

2.1. What is Proactive Prayer?

(Peter:) **Proactive prayer is** using the already powerful weapon

of prayer in a proactive way--not just **praying for** what we need today, but **what we are going to need in the future**. It's the act of investing time today in detailed, professional prayer for specific future goals, so that when you reach that point in the future, all the components will be in place so that the need will be supplied, the answer will be there. Proactive prayer is what is going to make the difference. Proactive prayer is going to accomplish what we can't do...**Proactive prayer is going to line up opportunities and open doors for us now**, so that they're ready--on "standby," so to speak--and so that we're ready to recognize them and walk through them at the appointed time.

We need to learn to use the weapon of prayer much more offensively. And a very obvious way to do that is **by praying for the future**, and not allowing ourselves to only be driven to prayer by the needs of the present.

The Lord has shown us that we must begin a spiritual proactive bombardment of the Enemy now. Similar to what the armies of the world do before they launch an attack, we need to send in a barrage of artillery to weaken the Enemy's forces and to strengthen our position...to prepare the groundwork for our attack, get our equipment into position, and do the necessary preliminary work that will ensure our victory... And we need to start now.

The Lord...has given us the ability to change the future...in order to win this war...**It's as if we can project ourselves into the future, see the needs, and then create the scenarios in which those needs will be supplied when we reach that future and have those needs [through] proactive prayer.**

When you're praying proactively, your part requires very little work in comparison to your having to try to do the whole thing on your own...Proactive prayer is an investment--you put forth the effort now, and you reap greater benefits down the road...Yes, it's something you need to do on a regular basis, but it increases your strength and your ability, because you're not doing it on your own.

But I'm not asking for just a one-time thing. **I'm asking for a complete mindset change**, a change of spirit, a change of priorities--**moving** the priority from working in the arm of the flesh **to working through the power of proactive prayer**, because that will bring the results that you're looking

for, which will change your life, and not just yours but the lives of others...It will move mighty mountains that you would have otherwise had to tunnel through.

So get the vision for proactive prayer. Get the vision for power through offensive prayer. And then, get busy--busy praying for the future, so that I will get busy working on your behalf like never before!

(Jesus:) **"I have great plans and huge ideas for the offensive.** I want to begin performing mighty miracles through you... If you **put your whole heart into praying that help down now**, then I promise that **you'll see miracles and answers to prayer like you've never seen before.**

Look at Me...as someone who can actually get in there, roll up His sleeves, and help you do the work. ... I can save you hours and hours of work time by taking care of the behind-the-scenes side of things, by preparing people's hearts, by supplying your needs and helping things fall into place, by setting up the miracles...before you have to get involved.
Tell Me specifically what you want to see done, and leave it with Me... so that things can actually go more easily and smoothly, .. Give Me a chance to help you out, to do some of the work.

Your work for Me is a work of the spirit, and as such you have to work in the spirit. If you want to do more, work better, be more efficient and get greater results, then you have to **work via proactive prayer.** It's simply the only thing that makes sense. Whether the task at hand is winning a soul, teaching a class, writing a letter, making a phone call, asking someone to support your work, trying to meet a key person, shepherding, taking care of the kids, fixing something around the house, letting Me work for you by **paving the way through your prayers is bound to ...be the easiest, most efficient way to do things.**

Do not belittle your ministry of prayer, because while it might seem like "just another chore," it's laying the foundation of your work for the rest of the day. And **every minute you spend in proactive intercessory prayer, it's laying another brick in place for the solid foundation of your future.**

(Peter)... the "preaching" to the more than 6.5 billion people in the world, and the "winning of disciples" in around 200 nations is clearly a job "too big for human hands!" ...Yet the Lord tells us that this is what we're supposed to do, what He has put us here on Earth for. If we are going to be

successful... it is imperative that we harness the power of the spirit through our offensive proactive prayers... We must make proactive targeted prayer a deeply ingrained part of our being, one that we recognize is a vital component to our success... **proactive prayer is God's business plan for the Family.**

"You're going to become [the greatest witnesses of all time] through the opportunities I line up for you. You'll only be in the right place at the right time through **miracles**" **[that] will be lined up as we pray proactively.**

We need to make proactive prayer one of the hallmarks of the Family--something that we are known by, something that is a strength...and we need to implement it zealously...Proactive prayer is a powerful weapon. We **have** to use it. We **have** to become proficient in using it. And that means very skilled. Advanced. Talented. Expert. Gifted. Competent. Practiced. Adept.

2.1.1. [The Heavenly Storage Vault of Miracles](#)

In Heaven there is a special storage vault for miracles **in answer to proactive prayer.** This is no ordinary storage place, because it has within it an elixir that keeps the vault constantly full to the brim with miracles ready to be released. There is never, ever a shortage of miracles. I pay special attention to this vault, and I often visit there to check on the state of things, and when I see the miracles being quickly replenished, I am delighted, because that means there have been many miracles sent to the aid of My praying children. The more action I see in the vault, the more movement with miracles being re-created, the more I know that you are praying, seeking, and believing.

I have more miracles than you can imagine, and you can never use them all up or exhaust the supply. I'm not stingy with miracles; I don't dole them out little by little, lest I run out. I'm the exact opposite. I would prefer to fling open the doors of the vault and have the miracles pour forth freely and quickly. But I have limited Myself to working on a "cash and carry" basis. You **bring the "cash," which is your prayers, and My angelic bearers carry the miracles right to your door, special delivery.** So be wise and make your orders today. Order in advance. You have unlimited "cash" in your wallet, so pull it out: Pray, and keep the miracles coming!

2.1.2.

Phases of Proactive Prayer

- **Praying [for the first needed element in time], for things that need to happen now.** You can and should be praying proactively for things that need to happen now, or soon, **to get things in place for the future...** We're talking here about *things that need to be happening now so that when the next step comes, people and circumstances will be in the right position.* The part that the Lord does is the key that makes it all come together... The Lord is the only One Who can turn on the light for someone, or light the fire of spiritual hunger in their heart. So pray proactively for ...the work to be done in the hearts and lives of those that the Lord will call in the future. ...God can use anything to get through to anyone. So if you're praying proactively, He'll find a way to get His job done, to make the call, to stir the desire. He'll turn hearts in the direction of the future He has in mind for them. Thank You, Jesus! Hallelujah!
- **Praying [for the second needed element in time], for the initial visible fruit.** It's a relatively short way down the road. **This is praying for solid fruit, the results that you know you'll need. This is praying for the essential elements you'll need to fulfill the long-term goals.** In this case... *You need to get the laborers, at least the first crop of them...praying that when the time comes for each of those folks to make choices, that they will make the right ones... whether to attend regular classes [etc...] that they'll have the conviction, and the strength, ... and everything they'll need to make that choice.* Again, **you're praying the "dream" into reality.** *You are in essence creating laborers, disciples, members, through your prayers.* ... So by preparing their hearts through prayer, you're also preparing their commitments and decisions towards the Lord and His service through prayer.
- **Praying [for the third needed element in time], for what you will need once you have the [first two] essential elements in place.** *[In this case], once you have your laborers, your Active members, your disciples, what are the things that you're going to need? What are the things that you are going to need to take care of them? You probably have an idea of what some of those things are... Also, ask the Lord to go before you and them to prepare the way. Ask Him to start to put things into place so that you can meet those needs when the time comes. Ask Him, too, to work out and supply the things that you know you can't foresee, but that you know He can...* When you pray proactively for things that are still a good ways down the road...you are also at the same time giving Him a forum to speak to you about things that you need to ... set into motion so that your spirit and life and

Home and situation will be in the right position to enable the Lord to fulfill your prayers when the time comes.

- **4) Projecting toward the big picture of the future.** This kind of proactive prayer shoots way, way ahead. This is the "think 5 or 10 years from now" kind of prayer. This is where it really gets fun... **This is where you can get inspired by the wonderful future that we have to look forward to.** This is where you can pave the way through your prayers for really great, grand, marvelous things.

2.1.3. What are Proactive Prayers Like?

[A Bulldog] I admire **the intercessor who, like a bulldog, bites something and refuses to let go, no matter what.** Be a wise bulldog, of course, and *be sure you're biting the right thing*, but then remember that often **the victory goes** not to the strongest or to the fastest, and certainly not to the greatest, but to the last: **to the one who never gives up.**

[A Bombardment Ahead of Time] **Prayer is one of the best offensive weapons you can use.** It's like sending in a bombardment ahead of time, preparing the field, the ground, so that when you advance, your way is already prepared. You can't change hearts or minds, but I can; you can't change spirits, but I can, and so prayer goes before you to do this work. Prayer begins the job, and sometimes even finishes the job, before you even have to expend any other energy. And if it doesn't finish the job, it does a great portion of the work so that when you finally step into the situation, so much is already done, the stage is set and the pieces all fall together, and that makes your work so much easier

[A Time travel Machine] You have no idea of the power of proactive prayer! It is simply so much more than any of you have thought or imagined it to be. Proactive prayer is like time travel. **It's like sending money** [power and help and anointing] **ahead of you, into your future, so that when you reach that stage in your life, that money will be there waiting for you...** you'll have that bundle of spiritual power right there ready for you to use and avail yourself of. Proactive prayer is mind-blowing--it defies time and the limits of the carnal mind!

[Millions of Minute Warriors] (Jesus) **“Every word you pray in full faith is going to march ahead of you, into the future, preparing the way**

for you, so that when you are a part of that future, all things will be in place for the miracles to happen, the supply to come through, the prayers to be answered. **You could almost picture every word you utter in prayer as a minute warrior**, one that, when backed with faith, comes to life and marches forward to fulfill its commission. I ask you to send as many warriors of prayer ahead of you as possible- Millions and millions and millions of these soldiers must be sent out - so that the way will be paved for your feet to follow, so that the miracles will be set in place to be fulfilled for you, so that My great and mighty promises might come true for you. **But every word in prayer must be backed by faith--your utter faith in Me to do as you have asked.**

[Furnishing Your House Beforehand] Your [proactive] prayers today are like furnishing a new house that you plan to live in... **You're preparing the conditions that you will work in by your prayers today.** *You're taking part in deciding on the situations and encounters you will face through your prayers today.* Today, through your prayers, you can either make your "house" one that is adequately furnished and ready to begin living in, or leave it as one that is sparse and uncomfortable and will require more focus and work when you move in...*make things go more the way you would like them to go through your prayers, through putting your full heart and focus into these proactive prayers today...* Then miracles will come to pass a lot easier, without as many of the spiritual obstructions or hindrances of the Enemy. Then *the fruit will ripen a lot quicker because you've watered it faithfully in prayer today.* Through your prayers I promise to prepare your offensive "houses," fitting them with just what I know is needed for you and your team and those you will reach and bring into My folds.

[Windmills] I need you to start the windmills of proactive prayer turning. I need the breath of your prayers to blow furiously and vigorously and consistently, to get these windmills [mega-powerhouses] churning and turning on your behalf. These windmills of proactive prayer will generate power, energy, strength, miracles, and anointing on your behalf, [and] the spiritual power that is generated will flood into your ... future progress and fruitfulness ... This spiritual power and energy will seep into the lands and hearts and minds and spirits of individuals. It will soften hearts toward Me. It will get the wheels of financial supply turning. It will turn men's hearts and minds toward you. It will unlock doors for greater potential. It will inspire kings and queens to want to support your cause...**all of these windmills of proactive prayer need to be spinning at top speed so that maximum power is being sent into the future on your behalf.** The goal is to *flood*

*the world with spiritual power through prayer, so that the soil will be ripe and ready for you to begin to reap the harvest when you step into the future...let the windmills of proactive prayer and spiritual power do the tough work for you...**don't slow down your efforts. Keep the currents of prayer blowing. Keep adding fuel to the power and energy and miracles of your future.*** Your prayers today will add miracles to your future. Your prayers today will add strength to your future. Your prayers today will provide anointing for the future.

[God's Stocks and Investments] We're investing the time in prayer now...because we want the big dividends down the line... *stocks and investments take time to mature...we're following God's business plan...paving the way through proactive prayer right now, [and] the Lord will ...set things up in the spirit as only He can. It's a win-win deal!*

[The Seed that Grows into a Tree] The fruits and results of the prayers that you have prayed ...will become apparent in the months and years to come. We can **know** that our prayers will yield results. *Just as it's a law of nature that a young sapling will grow into a tree that will produce fruit, we can be **that** confident of our prayers... Although it takes time for a seed of prayer to grow into a tree of effectiveness, one that will finally bear the fruits of visible results, it will happen.* It's done when we pray. End of story...because we've planted the seed...we know that the full, ripe, and tasty fruit will come soon enough, in God's perfect time. *We've got to do our part to keep it well watered through our ongoing prayers,* and the Lord will then do the part that only He can do...of causing growth and producing fruit.

[Supply Lines and Depots] Through proactive prayer we're taking the battle to the Enemy. We're going ahead to **set up our supply lines and depots that will enable us to win the war.** Our spiritual helpers are empowered to set in place the routs and the ambushes that will hit the Enemy where it hurts most. We're paving the way for the winning offensive of the future to be a success.

[Sending Stealth Spy Planes] Proactive prayer is kind of like sending stealth spy planes **into the Enemy's territory.** They go in, **they survey the situation,** they take photos of all the Enemy's positions, **and make a map of the targets that you're aiming for. Then that plane will come back and tell the bombers where to go, which then go in and prepare the way for the full ground assault--and they terrorize the Enemy** a bit while they're

at it. And then when the ground troops go in and take over the land, it's a whole lot more successful, and there are far fewer casualties... When the warpath is well prepared by **the proactive prayer bombers**, ...**you'll certainly have a very clear picture of where you're going**, of the path to follow. The ground assault is going to be so much smoother and better and be so much more successful than if you didn't have those **proactive prayer spy planes and bombers** going on ahead. So use those. Send them out there. Get them working for you.

[Billard game] The most important preparation you can make **for the future** is to **pray now**. As you pray now, in faith and obedience, **you're** opening doors, cutting a path through the toughest jungles and over mountains, preparing hearts and lives, and **permitting Me to position your cue ball for an awesome game later on**. I'm on your side and I want you to succeed. I want the victories of the future to be huge, as well as easily won. But *that's in your hands now through desperate and believing prayers*.

Investment on a Bank] You can deposit your prayers in My heavenly bank, which I will keep for you until the time appointed. This investment grows with each prayer you put into it...you send prayers ...to My heavenly bank of proactive prayer...and by the time the [period of time] rolls around, I will have many answers coming your way. You will feel rich in miracles, because you were a wise investor.

[A Super Hummer] Quit fooling around with trudging through the mud and bad weather and fog, struggling to get to your destination step by step. I can make this easy for you. Let Me take that load--all of your bags and backpacks and luggage--and dump it into the back of My Super Hummer. Now get in! I'll rev up this engine fueled by your proactive prayers, and we'll zoom on up the road to My perfect will. I can take you, carry you, and transport every bit of the load...relax and enjoy the ride. The sooner you do that, the quicker we'll get to our destination and the more time and energy you'll save. My Hummer of proactive prayer will plow right through any obstacles, ditches, storms, or blockages.

[Building a future house] Praying proactive prayers for the future can be likened to preparing a house in another place that you eventually plan to live in...first planning ahead, drawing up the plans, hiring skilled workers, and procuring the materials for construction....**Each time you pray, you can liken it to bringing one more thing that you'll need into the house**--the

carpet, appliances, furniture, dishes, linens, plants, food, and on it goes. If you pray a lot, then by the time you get there, everything will be ready.. You can do that in every area of your life by praying in advance. **Let Me know what you need, be specific, and I will work for you.** I'll get things all in order, and nice and fixed up, so that when you arrive, you can walk right in and carry on without missing a beat.

[A TimeTravel Contraption] Praying proactively is like time travel. You are able to influence the future and change the course of events through your prayers...you can **call on the Bulldozing Team**. This is an angelic force that **specializes in getting rid of obstacles that stand in the way** of your getting through and making your way to your destination... It's like ***you can get in a time travel contraption and jump ahead to the future, check things out, and take care of any problems... through praying about and for the future, articulating your future needs and desires***, and...letting My Bulldozing Team clear the way for you, and things will go much faster and more smoothly for you when you get to where you're going. Prayers that are full of faith are sent into the future to begin their work--changing events, hearts, lives, and minds; setting things up; organizing logistics; getting things ready. **By the time you personally arrive in that future, most of the work is done, and you just have to walk through the doors that are standing wide open for you on account of the prayers you sent ahead of time.**

[Boiling a Pot of Water] Put the pot of water on the heat and let Me bring it to a boil. In prayer that's what you have to do. Don't bother standing there watching it, counting every bubble, and putting your finger in to test it. **Get busy preparing the rest of the "meal"--whatever I've called you to do--and trust that I will do My part to bring that pot to a rolling boil. My answer will come just when you're ready for it, as long as you're faithful to keep the prayer fires burning.**

[A Computer or TV Screen] All you see is the computer or TV screen--what's obvious and right in front of you. What you don't see are all the tiny parts and pieces that must operate correctly and work together properly so that the display is right. The engineering that results in the picture can be likened to ***the engineering that prayer does to produce an answer***. Often what seems like a simple answer takes time, because ***behind the scenes, it's not so simple***. I'm working in every heart involved in the situation. ***I'm working to engineer it so that everyone is where they should be at just the right moment, so that everything can come***

together to create the answer to prayer that you're looking for.

[Hanging up Our Laundry] Can you ***hang up your laundry of prayer and trust Me to dry it?*** You might see rain clouds coming in and wonder if it's worth the effort. Will you just have to take it down again?...Will there be enough wind and sun to get the job done? Just let Me do the work. *Your part is to do the hanging, the rest is up to Me. How I choose to answer or when I choose to answer will be left up to My wisdom and plan,* but I can guarantee you that your clothes won't be left undried, and that I won't leave you out in the storm hopeless and answerless. **One way or another, I'm going to come through with the miraculous answers to prayer that you need. Just trust.**

[Dishwashing Soap] It's like the few drops of dishwashing soap that you dribble underneath a rush of hot water, and then almost like magic, **there are bubbles galore.** A tiny drop of soap explodes into color and life, and a cascade of bubbles fills the sink and even flows out and onto the floor--and those bubbles just keep going and going. Wow, such an increase! Proactive prayer is like that. You put forth your tiny efforts and investment of time, you **call on the rush and heat of My Spirit, and it comes back to you with explosions of miracles that will fill your Home to overflowing with joy, answers, healing, open doors, abundant supply, and on and on it goes.**

[A Fence at the Top of the Cliff] Proactive prayer is like ... building a fence at the top of the cliff **rather than a hospital at the bottom.** There's really no question as to which is the better course of action. Just think, *there are so many times that you pray reactive prayers--you are reacting to problems and situations that arise. Yet if you had prayed proactively, I could have solved the issue before it became a problem.*

[A Check Out Team] Just as dignitaries in the world have ***their teams*** that ***arrive in advance to check out the situation, the security,*** and to ensure that a location is safe and prepared for their visit...You send **[your Spiritual Support Teams]** ahead of you to **prepare the way through your proactive prayers.** Your prayers release them to set things up, to clear away any potential ambushes the Enemy has planned, to arrange the timing, and to make sure that everything is set up and ready for when you arrive on the scene.

[A Game of Tag] I love to be told, "It's Your turn!" That's putting Me on the spot, much like a game of tag. When you tag someone, you yell, "You're it!"--It's not a request, but a definite statement. That person then picks up the torch of catching the other players. So do the same with Me. **When you need a miracle,** that's the time to "tag" Me... **give Me the chance to be "it."** Tell Me, "It's Your turn." I love to be put on the spot like this--I love to be "it," **and I thrill to chasing down the answers and miracles that you need.**

[Calling Superman] I'm your personal Superman, and I'm with you all the time. The more impossible the situation, the more awesome the miracle you're asking for, the more I love to do it. **If you're struggling in your own flesh and barely hanging on, why don't you let go and expect Me to catch you?** I will, and I won't stop there, either. I'll carry you past the clouds and the noise to a place where all is quiet except for My clear voice of reassurance and direction.

[A Believing Little Boy] Be like the little boy who, **full of faith and expectancy,** reached out and took that watch, thanking the pastor. **Thank Me for this weapon.** Thank Me that you can put it to use. Reach out and take hold of the weapon of miracles by putting Me on the spot!

It's the same trust that a toddler has when leaping off the side of a pool into his parents' arms. It doesn't even occur to him that he could fall into the water and drown. So great is his faith that he will end up in strong, caring arms, that he acts--without thinking, without taking into account the probabilities and the risks. The parent rewards that faith by catching him.

2.2. PROACTIVE TARGETED PRAYERS

You can do one thing that will make it possible for you to do it all, and that is: You can pray offensively. Pray targeted prayers. Pray for specific people. Pray for specific needs, both short-term and long-term, and then stand back and watch Me fight. Sure, you'll have to do your part, you'll still do your work, but everything you do will be much more effective if you've done your advance, proactive prayer work... You just have to make the time to intercede in prayer, and to pray effectively. You have to know what you're after, and work hard to get it--in prayer.

(Jeus:) I'll let you in on a little secret--when you cut right to the chase and cover all the details in your prayer, your prayer gets top priority. I know

just what you want, down to the tiniest detail, and I can then get My prayer answering team right on it. There's no second-guessing, no back and forth--because you've been direct, specific, and detailed right from the start.

(Peter:) Praying on target involves aiming your prayer at a specific person, place, time, situation, or demographic. Project a person, or a scenario, or a picture in your mind. Then let the person or need fill your entire consciousness. You can do this most effectively by **putting yourself into the situation that you're praying for... Visualize yourself... finding a specific answer or solution...** You need to be **so immersed** ...that you're better able to pray for their specific needs... Isolate the problem... and pray specifically for that. Even if you're **making assumptions in your prayers about what the needs** are... doing your best to put yourself into the shoes of someone else, you're very likely to make a few correct assumptions... If you're giving details in your prayers, you have to be more alert, concise, and targeted.

You can know the future by praying proactive prayers for future events and then **making your decisions based on the answers that you know that I will grant you.** In this way it's almost as if you have power over the future, because you have power to determine how the future unfolds through your proactive prayers.

2.2.1. What are Proactive targeted prayers Like?

[The torpedoes from a submarine] Focused, specific prayers get focused, specific answers. Picture yourself as a submarine commander setting up for a strike on a warship above. You don't just go firing your torpedoes off in all directions, hoping that one's going to hit the target... So you carefully take aim... You pinpoint the exact location and distance, the angle, the depth, the water current, and all the rest. You want your torpedo smack in the fuel tanks for a one-hit explosion. You don't put faith in a second strike. You need this first one to be it. **You're focused. You're careful. You're precise. You're determined.** Now take that principle, and apply it to your prayer... He expects you to **give attention to that specific problem that you want to see remedied.** If you pray so generally for something, don't expect a specific answer. As Dad said, "You get what you ask for, and what you have the faith for." **Praying on target involves giving the Lord details and clearly articulating what you want to happen.**

Another quality of targeted prayers is that they **hit a need from as many angles as possible.** This provides good opportunity for a number of

people to pray for the same request or theme. **Different people will think of different aspects of the request, and can add it to the prayer**... Each person would give their point briefly, and then the next person would add to it, or bring up a new point, as in conversation... There are many angles to each prayer request, and within each angle, there are specifics that you can articulate. State the problem, articulate the need, and then hold the Lord to fulfilling the answer.

[A Bow and an Arrow] When there's **a specific promise to claim**...it will speed **the arrow of your prayers** into the heart of the target that you're aiming for... targeted prayers are enhanced by targeted claiming of **key promises, Bible verses, and spirit helpers**. Think target. Think bull's eye. Think dead center. Think hitting the mark. **Think of your prayer as a sleek arrow, zooming to its mark**. Ready, aim, fire away! Amen?...We want to rock Heaven with our prayers! We want our spirit helpers to feel the energy of our prayers, and to be infused with new strength and vigor as a result. ...Teach us to be targeted in our prayers--to know exactly what we're aiming at. And then **to put all of our mind, heart, soul, and spirit into telling You what we need**, and **why** we need it, and **when** we need it, and **how** we need it. Give us great faith to pull **the bow of desperation** and to release **the arrow of targeted prayer** into the center of each prayer request. This will help Your hand to act and move on our behalf. Help us to be persistent in prayer, tireless in prayer... Keep us alive in the spirit, alive in prayer! Make us the proactive prayer warriors that You want us to be, dear Jesus.

[A Super-Weapon] (Jesus:) You have at your disposal **a super-weapon**, one that can be used at any time to bring about the victories you seek. You get to set the parameters of the effects that this weapon can have. You get to **define the precise outcome simply by enunciating the coordinates--that it will hit precisely at this point**, cause this thing to happen, but not the other thing, and result in the desired conclusion. In the hand of an expert, the effects of the super-weapon of targeted prayer are out of this world.

[A Magnifying Glass] Did you ever focus sunlight through **a magnifying glass**? That's a pretty good illustration of what you do when you pray on target--you're being used as a means to focus and concentrate My power on something. Sometimes you have to move around a bit and try different approaches until you "get it." Then you have to hold real still and quiet and wait for that white-hot pinpoint of the power of God to do its stuff. If you

do your part right, you'll see results!

[A business Meeting] If you were leading a business meeting to organize and prepare for an event or an upcoming project, you **would be thorough in describing to your co-workers what needed to be taken care of** and any aspects of preparation that you were specifically aware of. The same goes for proactive prayers that are targeted. Be specific. [with **your spiritual support teams**] **Cover the matter thoroughly. Be detailed in describing what needs to get done or happen ... send them ahead of you to prepare the way ...** Your prayers release them to set things up, to clear away any potential ambushes the Enemy has planned, to arrange the timing, and to make sure that everything is set up and ready for when you arrive on the scene...take those desires ... and translate them into proactive prayers...Define the need, claim it in prayer, and count it done.

You have an entire spiritual team that can work for you, and *your proactive prayers delegate the various aspects of preparation to your spiritual team members*. The best thing about this team is that they are 100% reliable and will take their assignment and follow through on it until it is completed. You may need to counsel further and pray more for specific aspects, but they never drop the ball, never forget to do something...in order to do some of the impossible tasks that I'm putting before you. If so, avail yourself of the help of My teams through **spiritual planning meetings** of proactive prayer.

[Playing a Role] It's like playing a role. **Imagine that you are that person or that you are in a certain situation**, and through the keys I will transform you and help you to pray as you would want others to pray for you. The keys can help you to relate to the situation so that you can feel what others feel, and so that you can aim your prayers in sincerity and with the fervency that will bring the best results.

[A Marksman] Taking enough time to think, to **consider all the angles**, and to make sure your shot is going to count will ensure that you hit the bull's eye every time, ...Take time to target your prayers, like a good marksman practices his hunting skills, and you won't regret the results.... in order to bring about the best results, try to shut everything else out of your mind...Just stop for a few moments, close your eyes, and concentrate on Me, and I'll help you to focus your thoughts enough to target your prayers.

[Painting a Masterpiece] Praying on target is like painting a masterpiece. With each stroke of the brush, you can add more detail to the picture, more

color, more depth, more precision. The more detail you add, the greater the masterpiece. That's like prayer. The more detail you add when you petition, the greater attention and detail I put into the miracle "masterpiece" of answered prayer.

[Taking a Quality photograph] Praying on target is like taking a quality photograph. It means putting your spiritual eye up to the viewfinder, identifying your point of focus, and then **adjusting your camera lens so that everything else in the picture fades into the background** ... You have to capture the object of your prayers in your mind. Focus your spiritual eye and prayers on that target, **not shifting your eye to the right or to the left**. That's precision prayer. That's targeted prayer--prayer which will capture the power of God and reap quality results.

[A Virtual Reality Headset] Put on a *spiritual virtual reality headset* when you're going into targeted prayer time. Of course, this isn't a game, but the concept is the same--**you're a key player in the action, and you are there. You're not just observing**, but you're playing, moving, acting, thinking, and doing what you can to bring about the needed solution to the problem, the answer to the question, the victory in the battle.

[Transporting to a Solar System] Praying specifically, putting yourself in the situation of those in need, and **focusing intently on the specific requests and how you want them to be answered**, is no longer viewing a star that is light years away. It's transporting to its solar system. You see the planets that orbit it, you explore each one, you feel the temperatures, you are pulled by the varying gravities, you meet the life forms, taste the fruit, experience the culture and intelligence.

[A Massive and Powerful Software Program] Prayer is like a **software program that is massive and powerful and has more capabilities than you can imagine**. You have the option of how you want to use it. *You can call it up to do a few tasks and leave it at that.* Or you **can try out all the commands and learn all the shortcuts**. *You can read tutorials and **find out the tips and tricks, and you can go to lengths** to take advantage of all its abilities...* The second [method], however, will catapult you to new heights, and solve many of yours and others' problems, in a lot less time. Plus, ***it makes Me, the creator of the program, happy that somebody's finally taking advantage of all its functions.***

[A Curling Match] Have you ever seen a curling match? Perhaps on the TV

coverage of a winter Olympics. It's a team sport: One man throws a heavy polished granite stone across an ice lane in order to reach a target. **Two men or women run alongside the course brushing the ice** at various speeds and **points to make the stone move faster**, or more in one direction or another, **while the thrower calls out directions to them**: "faster," "harder," etc. *The sweepers don't touch the stone. They **just affect the conditions of the ice directly ahead of the stone**, which affects the trajectory, and ultimately the score of that round. **It's really a team effort!** In prayer **you're the thrower**, and **My spirit helpers and I are the sweepers**. We listen for your request in prayer, and then we brush and manipulate the surface of the ice in such a way as to warm and melt the ice a little in order to alter the stone's course, or get pebbles and debris out of the way so that your request can reach its target...if you do your part to **throw with as much accuracy and strength as you can through your prayers**, *we promise to do our part to pave the way, so that your prayers will be answered in the highest scoring way possible!**

[Calling Someone on the Phone] **My spirit helpers** perform My will in all things, so ...Tell them what you need and send them in My name...You're just **calling them up like you would call someone on the phone, asking them to do you a favor...**I want to **get you fully and constantly engaged in spiritual warfare**. I want you to **let the boundaries blur between the physical and the spiritual...** why can't you **call up a spirit helper**, who is also just 'in another Home,' so to speak, **and ask them to do something for you?**

[A Heavy Duty Cable] Prayer creates a **strong connection between the need and the answer**. You become **like the heavy-duty cable** between a crane and a heavy object. You complete the connection **between My power and the need**. The strength of the cable is determined by **the strength of your prayers, and your determination to see the prayer answered**.

When you're praying in faith and standing on that faith, you don't even consider other possibilities. **There is no Plan B, only Plan A--counting on Me, the Alpha and Omega.**

[A Taxi] Prayer is your **taxi of the spirit**. You need to **state what you need, when** you need it by, **and how** you expect to receive it. What you pay the taxi driver is like the effort you need to put into prayer, and the time it costs to actively and wholeheartedly present your specific requests to Me. And **you need to keep praying and keep commanding Me until you**

receive the answer that you know is coming. Knowing your destination is like knowing what the goal of your prayers is. **You know exactly what answer is needed, down to the smallest detail.** You know when you need it by. The details are clear to you, and you clearly state those details to Me.

[A Giant Free Store] Heaven is like a giant free store, and **you just need the membership card of faith to get in...** Well, this is no dream, My brides. **I have a heavenly free store with everything you need, and more! Access it through faith and prayer, because I want to pour out every single thing that you need, and even some of your wants.**

There are entire levels in My Heavenly City that are full of title deeds to properties, vehicles, bank accounts, houses, and even whole countries, as well as gold, diamonds, and unfathomable wealth, just sitting there--untouched--awaiting the day when you will have greater faith to claim it. It's all here. I'm only waiting on you.

2.3. OUT OF BOUNDS PRAYERS

(Peter)... My goodness, we're taking on ***an unbelievable task of trying to reach and win and train the whole world.*** He wants to help us to do that. He's the One Who commissioned us to do it, after all. ***So let's look at our needs and how big they are, and ask for the miracles that will do the trick.*** Let's stop being shy when **our Husband is the King of the universe!**

Out-of-bound prayers means **not asking for the minimum, but for the maximum...** So **let's all go out of bounds,** shall we, **in both the way that we pray and what we ask the Lord to do for us.** Let's rip off the roof of our expectations and look up at the huge universe of the spirit that is waiting to be explored and pioneered and harnessed! We have so many needs that we can't afford to let the faucet of miracles just drip them out, one by one. We need to **figure out how to open the water main and get a flood going!** Amen?

(Jesus:) Out of bounds means **over the line, something that is almost shocking, that may even seem like you've gone too far.** But I love it, because I didn't set those bounds. You did. ***Only your traditions and expectations and routines have boxed in your faith regarding what to***

ask for and how to ask.

Pray extreme prayers when you need to see extreme results.

Extreme prayers are prayers prayed *in full faith*, because you know that I am the God of miracles, and the conqueror of the impossible. I can and will do anything. Show Me that you believe this by praying for an outright, upright, Heaven-sent miracle, an out-of-this-world answer. **I love to supply My children with extreme answers and miracles**, but you have to **do your part by pulling them down in faith and expectancy. Do whatever it takes to get the answer you need. Strip off your pride and self-image, and come before Me naked in true desperation and humility.** I am nigh to, and can't help but honor, the humble and contrite heart. When you take the step to **do whatever it takes to get the answer**, I will take as many more steps as needed, and do whatever it takes to give it to you...

I like it when you **show your utter dependence on Me, regardless of what others may think**...The key element for effective prayers is faith. I'm talking about **faith that's so strong**, so eager, so enthusiastic, **so desperate, that it doesn't even really notice that it's asking for and expecting something "ridiculous"** by the standards of logic or practicality.

This is **faith and prayer that puts itself out on a limb and saws it off**. This is prayer that is born of a fire in the heart that cannot and will not be quenched. **This is prayer from the heart of one who has spent time in the closet with Me and gained an assurance that makes their face shine with glory when they emerge.**

Your prayers should display the heat and passion of our relationship. **When you're madly in love and know that that love is reciprocated, you have no shame or fear in making your wild requests known.** I want you to come to Me like that in prayer. "Come boldly before My throne," as **one who is madly in love with Me and has no shame or hesitation in asking for anything, no matter how great it may be**, because you know that My love for you is reciprocated, and many times over. My love for you knows no limits! I'm intoxicated by My love for you, and I long to give you the world--if you will only ask.

2.3.1. Desperate Prayer

(Jesus:) If you want an example of an out-of-bounds prayer, look at what **Moses** did when he prayed for the children of Israel. **He told Me that if I was going to judge them, then I would have to judge him too, and take**

away his life as well. He literally put his life on the line, and stood between Me and them. **And his desperation changed My heart.**"

If you've got nowhere else to turn, if you're at the end of your rope and have no alternative, you're more likely to fight in prayer with all you've got. You're more likely to be fervent and effective and unceasing in your attempts to pray that victory through. But why wait for a dire situation? **Get desperate and focus on obtaining the answers you need, before circumstances force you to get desperate.**

(Daniel the prophet:) Praying out of bounds is all about **showing the Lord your desperation, your seriousness about getting the answers you need.** It's a way of doing or saying something to **jerk yourself out of any ruts that you're in** and to take you to a new level of desperation. I prayed out of bounds when the Lord commissioned me to tell and interpret the king's dream--or else it would have been death for me and my friends and for all the other astrologers. **We fasted and prayed to show the Lord our desperation. We asked for something big--for the revelation of this dream--and we got it!** But we didn't just pray. **We stopped everything in our day. We didn't eat, we didn't sleep. We just prayed and prayed and prayed.** Is that something that could apply to you sometime? I don't know if you will feel led to fast or to forgo sleep. But the point is that praying out of bounds means **being willing to do something out of the ordinary.** We didn't have 30 minutes of prayer vigil and then resume our regular duties. If we didn't get the answer, we were dead anyway, so what good was food to us, or our normal tasks, or even sleep? **We needed a miracle. That's what we expected, and that's what we got!**

(Peter:) Well, that's something to think about, isn't it? How much are we willing to pay for an outstanding miracle?

2.3.2. Praying in the Spirit (Tongues)

(Peter:) It's helpful to pray in the spirit when **you know in your heart that the Lord wants to do something great and awesome** in a situation. But **you don't know exactly what to pray for or what the Lord's plan is.** So you can **pray in the spirit by asking Jesus to pray through you in tongues, to intercede through you.** Or you can **ask a spirit helper** who has the gift of intercession **to pray through you....** Intercede before the Lord in your heart, "with groanings that cannot be uttered," (Ro.8:26) and let Him interpret it according to His will.

If you will **leave your preconceived ideas behind**, if you will enter into the temple of prayer and pour out your heart to the Lord in tongues for the need, He will answer in the most perfect way. **It's also a step of great humility and surrender and yieldedness**, which opens up even more channels of power in the spirit.

So praying in tongues is very effective, and it's something you should probably do a lot more of. We're quite often faced with very great needs, where we need the Lord to take over, because we don't even know what we need or what His highest will is. That's when letting the Spirit pray through us can really be helpful and powerful.

[Also] it's very effective to speak in tongues... as a means of priming the pump or warming up in the spirit.

Maybe you need to **go into your prayer time** without any type of list at all, **and pray for the most unusual requests you can think of.... Just let the Lord lay things on your heart spontaneously,** until you get back that pioneering spirit. You need to do whatever it takes to **go into prayer time with expectancy, a vacuum in the spirit, and faith that wonderful things are going to happen!**

2.3.1 Fasting Worldly Input

(Peter:) **We're going to do whatever is necessary to show the Lord that we mean business.**

(Maria:) sometimes **things that we do in the physical can show the Lord that we really mean business in prayer, that we're desperate for the miracles, that we want His answers and we're willing to do whatever it takes to get them.**... *Personally find out from the Lord what your freewill offering to Him is, and what you can do in the physical to prove your desperation.*

Fasting worldly input ... would be something that we could do in the physical, a gift that He would be very pleased with. **It's a sacrifice that we adults can make to show Him that we mean business, that we're willing to give something up in the flesh in order to receive more from Him in the spirit.** **It will also allow us more time to focus on our spiritual lives and the personal changes that we need to make. It will strengthen us and cleanse us in spirit.**

If we're willing to make **a little sacrifice** like this **in order to show our**

desperation for the things that we [are] praying... it'll be a special offering to the Lord and will move His hand to work in our lives even more powerfully.

Let's give the Lord our full cooperation, and show Him that we mean business. As we fulfill our part of the bargain, whatever that may be, He is bound by His Word to fulfill His end, and He will.

2.4 PRAYING IN JUBILATION

(Jesus:) When you pray in jubilation, **you're happy, jubilant, you're excited about what I will do.** You can be this way **because you know** that I will take action, and **that the results of My action will be good.** You can get jazzed, thrilled, and excited about your prayers, **because** you can know that not only will I do something, but **I will do what's best.** You can overflow with happiness and joy and positive emotion when you pray, **because** you are the bride of the King of the universe. **You have a Husband Who can defy all impossibilities and do absolutely anything and everything!** How could you not get excited about that? How could you not be reveling in joy and praise for such a magnificent privilege? **How could you not be thrilled about such endless promises and pledges of goodness?**

And when I answer prayer, how could you not feel **a tremendous sense of satisfaction and accomplishment, knowing that because you wanted it, I gave it.** Because you needed it, I accomplished it. Because you prayed, it was done. Because you asked, I answered.--Because I love you, because you are My bride, and because I have the power

(Peter:) We can be elated if **we truly believe and have faith that He's going to answer our request, just like a child gets excited before his birthday.** He knows something fun and joyous is going to happen, even if his birthday is a few days or weeks away. **He knows that it's only a matter of time before he's going to be treated like a prince.** He knows he's going to get a gift, maybe even a few, and it's a source of joy to him even before he sees it, much less unwraps it.

The Lord wants us to be that way with prayer. He wants us to be buzzed, to **go into prayer fully charged and ready.** Now, there's a time for serious prayer, to be sure, the kind of prayer where you pour out your heart to the Lord with strong tongues, and tears, and desperation. But we could sure use a whole lot more of praying in jubilation, which is:

- * Being on cloud nine in the spirit;
- * Getting intoxicated on Jesus;
- * Feeling enthusiastic and euphoric because of the wonderful, tremendous, earthshaking answers and miracles that our Husband is going to make possible.

Praying in jubilation is like **picturing in your mind's eye Me standing in front of you, holding out the answer like a gorgeously wrapped present**. When you are praying, **you are unwrapping it, thanking Me for the beautiful packaging, the perfect timing**, and telling Me how much you need and appreciate the gift.

He will answer. He will do the miracle. So why wait until you see it with your fleshly eyes to get excited about it? Start getting excited before you even pray, and **stay excited while you pray**. Then **continue on with that spirit** of expectancy **until the answer arrives--no matter how long it takes. You ordered the miracle**; it's going to be shipped and delivered to you. **You have the tracking number of the Lord's promises. So it's a done deal!...** Pray as if you feel like you're the luckiest person in the world, because you have such a tremendous amount of power at your disposal...**pray while you're imagining your ideal miracle.**

Take ...a minute to think about a miracle that the Lord did in the past...Then go into praying your prayer with that same spirit of satisfaction and joy, knowing that **the Lord wants to make you...truly happy by answering you in the best way possible...**Another tip: Think about **Heaven and our glorious future**, and **let that motivate you and thrill you as you pray.**

Praise prayers are like the jubilant band of singers and dancers, **leading the believers all the way to victory**. They enter My gates with thanksgiving and rejoicing, **laying hold on My promises, knowing that I cannot fail, I will not fail, and that victory is on the way**, for with Me nothing is impossible!

Lift up your arms, laugh, clap, cry tears of joy, sing, dance, shout--do whatever you wish in order to **show Me your praise** as you pray in jubilation and thanks **for all that I have done and all that I will yet do. Laugh in the face of the "impossible situation" that looms before you, and praise Me for how I'm going to turn it around for good. Praying in this way does your spirit so much good.** It puts you in a positive, optimistic, and upbeat frame of mind, which is something you really need when facing a daunting or difficult battle.

When you pray, choose to see it from My perspective and get

excited that you're giving Me another opportunity to do something special to amaze you and show you how much I care for you... **So bring all the jubilation and praise you can into your prayers, and into every aspect of your life, and you can rest assured that you are** taking aggressive positive prayer action, and **letting the spirit work through you and for you to answer your prayers.**

2.5 **PRAYING LIKE YOU'RE IN CHARGE**

(Jesus:) **Praying Like You're in Charge**" means having confidence...faith. **It's absolutely knowing that I will do whatever you ask of Me.** It means "**commanding Me**" and commanding action in the spirit. It means **praying** like you mean it, and **like you believe it...getting down to specifics**--times, amounts, **details**. It means taking a stand of faith and **relying on Me and only Me to get the job done, to meet the need, to provide the solution.** It's **not relying on anyone or anything else**, or having a "plan B" in case I don't answer prayer.

(Peter:) You're **bold** in making your request! **You're straightforward and direct.** **You remind the Lord of His promises**, and you let Him know in no uncertain terms that **you expect Him to make good on them**. You have such confidence in the Lord's power and the results of your prayers that **you don't question or wonder about other possibilities**. You don't think, "Well, let's see, if the Lord doesn't answer this request, what should we do then?"

You **know** that the Lord is going to come through for you....Thus, you take a stand of faith and **rely on the Lord and His omnipotent power alone**. No other assistance or props are needed. **Faith expects**. And expectant faith is rewarded with miracles.

We are in charge! Jesus said that all power in Heaven and Earth is given to Him, and through the keys, we have access to that same power!

When you **get down to business with God in prayer, you're an officer in the spirit, commanding the armies of Heaven**. You have the power, the authority, and the responsibility to command the warriors and helpers of the spirit to carry out the missions that you assign to them. **The Lord says, "Command ye Me."** Our helpers in the spirit would say, "We're just waiting here for you to tell us what to do." You have to give them clear instructions. You have to **tell them exactly what you want done, how you want it done, and when it needs to be done.** **You've got to be precise.**

You've got to be specific. Set deadlines. Outline the weapons that they should employ. Tell them who to work with. **Counsel and confer with them.** Make your commands clear and thorough. And then you can be confident that they will complete the mission.

Hold the Lord to His Word. Ask the Lord to increase your faith. **Make your stand of faith sure, and don't let anything sway you or dissuade you.** **When you ask the Lord for something that is His will--no matter what it is--believe and know that it's your right to receive the answer to those prayers.**

(Jesus:) **Command Me to work for you! Be definite! Be insistent! Be emphatic! Be confident! Get into it! Tell Me to do it. Order Me! Make Me do it by holding Me to My promises! I'd love it!** It's not a chore to answer your prayers. It's not drudgery. It's something I'm "dying" to do. So I'd love to be told to do it, ordered to do it, commanded to do it. Pray like you're in charge, and you will be setting Me free to work for you like I never have before.

Be a crazy dreamer! **To get great things from God, you have to have great dreams!** Think big, **ask big, do big!** And the way you do that is by having crazy faith to go along with those crazy dreams. If you never **step out to do the extraordinary**, you'll be forever stuck in the monotony of the average, the run of the mill. I will do what you ask of Me. **I will work for you, and go to Hell and back to answer your prayers**, so don't limit Me with small prayers. Really go for it! Be a crazy, wild, proactive prayer warrior!

What does **putting Me on the spot** mean? It **means** standing on the spot in spirit, **claiming that "ground" or territory of an answer or solution for My glory, and not moving from that spot until the answers or blessings arrive.**

2.6. PRAYING PROFESSIONALLY

(Jesus:) **Think of prayer as a profession**, and then strive to be the best you can be in the field of prayer. *Any professional* who is going to get anywhere **has to put time and effort into his work, and** has to work at improving his skills and keeping up with the times.

A good cook isn't necessarily one who knows how to make everything on his own, without any help or instruction. **A good cook** is more often one who ***knows how to find the right recipe, and then how to follow it properly and obtain the desired result.*** **A good disciple does no less in his prayer life.** Review the rules, strengthen your understanding of what I've said about prayer, and then **check off each requirement. Be methodical about it, and be fanatical about it.** As you follow My recipes, **you will get the results that I have promised.**

By professional I mean that you take your prayer life seriously, you **have a time and a place to pray**, and you **have a plan.**

When you're "praying professionally," the main focus is on **getting things done.** The main elements are:

1) **Coming to your prayer time** prepared; **knowing what you are asking**

for, why, and how. [*Being*] *precise, clear and convincing.*]

2) ***Expecting that I will deliver.***

3) **"You get what you pay for."** ...realizing that your efforts in prayer are

rewarded with equal dividends in fruit.

4) You're also **open to hearing from Me as you're praying.**

5) **Persevering until you see the the answer.**

6) **"Do the wanting"**

2.6.1 **Being Precise, Clear and Concise**

(Peter:) He said that we need to know **what** we're asking for, **why** we're asking for it, and **how** we want it done... ***Is your attitude in the spirit one of determination to get the answer? *Are you doing your part? *Do you "look the part" of a professional prayer warrior? ****Do you have your full focus on getting what the [Lord] has to give?...do you,...with a definite*****

goal in mind, give your full, undivided attention to the interaction and communication? **Do you ensure that every fiber of your being is focused on achieving the results that you want and need?**

The Lord...is the owner of the bank of Heaven. He's the One Who will say yea or nay to your requests!...And He **wants things done, and done right, and done His way. He expects you**, His managers, His employees, His loan applicants, **to "do your homework."** He counts on you **to put the time and the effort and the focus that it takes into preparation for prayer, and prayer itself, to get results.**

2.6.2 Expecting that I will deliver

(Peter:) Prayer is a business transaction between you and God. And, since He's God, when you put in a request and you submit it professionally, He is going to do something about it...and you have to believe it.

2.6.3. You Get What you Pay For

(Peter:) The fervency with which you pray is directly reflected in the answer..."You don't get something for nothing." And that's the same with **the Lord's blessings. They are conditional upon us... doing our part: [praying]. We pray, then He works.** You have to look at prayer as part of your professionalism as a disciple.

(Jesus:) Just as the professional athlete gets out of the game what he puts into it, so it is with **the professional prayer warrior.** [He] has to be consistent, **diligent, regular and persevering.** He is not shy about persisting in prayer; he expects that he'll have to persevere if he's going to get the desired results. If necessary, he'll pray as long as it takes to get the answer that he needs.

2.6.4. Open to Hearing From Me

(Peter:) Now, there's another very important element of professional prayer, and that's being open to the Lord's voice as you pray...Again, we have the concept of the...employee conferring with the Big Cheese, the CEO--in this case, Jesus...If you're coming to ask for help with your needs, well, He's probably going to have something to say

about that, along with doing something about it. He's going to agree to do certain things Himself, that you have nothing to do with. **But in many cases, He's going to want you to do something too...** He may well have some instruction or word of counsel--or maybe a promise--that is going to be important to receive, and to take note of, and to remember. So **go into your professional prayer sessions prepared to hear from the Lord too, as He may wish to speak...Prepare also by having..a dictaphone, or a computer, or pen and paper.** When the CEO talks... you want to keep track of what He has to say. You want to **make sure that you remember it**, so that you can go from there and do it and get it right.

(Jesus:) While you know that **sometimes I will take care of a matter on My Own, sometimes there is also something that you must do**. So you're **ready and alert to take notes**, and **then to diligently follow through on the things that I instruct you about** while you're having your prayer time... It may be ...a full letter of guidance or counsel for you or for someone else. It may be an idea or a solution to recommend. **If you're open and listening, if you're ready to act on what I show you** during your times of prayer, and prove yourself diligent to follow through, **that's professional**.

2.6.5. Persevering Until You See The Answer

(Jesus:) Praying professionally means **persevering until you see the answer**. **A professional doesn't stop halfway through a project**. You'd never get promoted, you'd never get anything done, because in order to get something done, **you have to not only start it, but complete it, and you have to see it through**. But so many people pray that way--they **pray once or in one sitting**, and that's the last they remember of that prayer request. Praying that way **can indicate that you don't really expect an answer, because you're not looking for one**.

A key in praying professionally is not **only focusing on specifics** and **believing that there isn't an alternative to receiving the answer**, but it's in **coming back again and again, and not wavering in your faith if the answer is not seen immediately**. Sometimes I will bring the answer immediately and other times I will allow the answer to take longer for a variety of reasons. Sometimes the time is not right. Sometimes there are still choices that must be made on the part of the recipient of the answered prayer. And other times I just want to test your faith and see if you will **pray and pray again until you see the answer**. **The key is believing. The key is knowing, and never taking no for an answer. Never give up, and you**

will see the results of your prayers.

Don't ever stop believing! It's through your belief that God can do it and through your crazy faith that you will win every victory, receive every promise, and gain every reward.

2.6.6 “Doing The Wenting”

(Jesus:) **The professional prayer warrior** is not limited to just speaking his peace, but he realizes that sometimes he **must "do the wenting."** *I often request that something must be done in order for Me to answer prayer*, and the professional will be on the lookout for clues. He will seek out what must be done in order to get the job done. **He will be on the ball, always looking for a way to make his prayers more effective...** [He] is a **go-getter**. He knows what he wants and **is prepared to do whatever is necessary to get it.** *He won't give up until he gets the desired answer.*

If something happens to come up later which involves a "refiguring" on the prayer front, he comes right back to the table, prepared to talk again, and prepared to do his part, whatever I may require, to meet the need and get the job [answer to prayer] done.

He's prepared to give whatever it takes to make it across the goal line. If more prayer is required, or more conditions need to be met to bring the desired outcome, **he's right there, Johnny-on-the-spot, to do all that is necessary to pray the answer through.**

2.6.7. Keeping an Updated Prayer List

(Peter.) A professional prayer warrior [1] keeps a list,... [2] updates that list, and [3] takes note of when something has been answered. Keep a record of answered prayers... It will encourage your faith. It will help boost the attitude that through prayer you are getting things done and changing things. It will help to remind you that **when you come to your prayer times you are there to get things done, to take action.** Professional prayer isn't scattershot or hit and miss. It's focused, it's clear. **You've got specific requests and you're expecting specific answers.**

Each Home should **keep an official Home prayer list...**keeping that list current, **updated, and complete.** There are *many things* that are important to pray about *on a long-term basis.* And...you should *come back to them regularly.* That might be *once or twice a week...*or whatever the case

maybe.

You need to **have your prayer requests organized** and trimmed down. Prayer list entries should not be paragraphs long. The points on the prayer list should be **concise, clear, accurate, and up to date**.--Ideally, your prayer requests should be **categorized** into different types of prayer requests. That way, when you're praying for a specific topic or type of need, you can cover it well and thoroughly and not forget anything or anyone.

Have someone or a group of people in your Home who are focused on...keeping an updated prayer list. **Having a good prayer list is** akin to having a good to-do list... Having a to-do list is the 1-2-3 of any course on efficiency, organization, or time management. And when it comes to professional prayer, the prayer list is just as **essential**.

I would also encourage each person to **keep a personal prayer list** of personal things that maybe only you or a couple of other people know about. This list could include requests for yourself--your spiritual life, your work, your needs, your battles. It might also have prayer requests for your children or your teens, or spouse or significant other.

2.6.8. Professional Prayer Warriors on Duty

You should **regularly and daily dedicate sufficient time to effective, specific, key-filled, spirit helper-assisted, spiritual weapon-enhanced prayer**.

Prayer is a skill that can be honed, so take time daily to sharpen your prayer scythe. Then when it comes time to use it, you'll be able to cut through the obstacles with ease.

Like a doctor knows that **he'll never be able to turn a blind eye to a needy situation** that requires medical assistance, so **the professional at prayer** knows that he **can never slack off when prayer is needed**. He's **always prepared to meet a need**. He's equipped to ask at the throne of God and he expects Me to deliver the goods.

Just as the doctor knows that he is trained and has the necessary skills and knowledge that could save a person's life, so it is with **the prayer professional**. He **knows that he has the close link with Me** that can command action in the spirit world **that will work miracles in the lives of those that he prays for**.

The prayer professional knows that **his gift of prayer makes him a**

servant of others... He's responsible and he knows that when prayer is needed, he must deliver the goods and intercede before the throne of God until every prayer is answered.

2.6.9. Steps for a Professional United Prayer Vigil

So, say it's **time for your Home's united daily prayer vigil**, and you want to **be professional about it.** How do you go about that? Well, **first of all, you prepare beforehand...**or the person who's leading the meeting is prepared.Or if **you're having personal prayer time, then you're prepared.** **[1] You have a list of specific things** that you're going to pray for, **and the specific results you want.** You've really done your homework, **[2] you have + specific keys or +verses or +spirit helpers** already in mind or **listed**, so that you can claim them and use them. **[3] You'll have some means available to record any instruction that the Lord might give.**

Then, you come and *sit down in your meeting with the Lord, with the attitude of both humility and confidence.* ...You're the employee coming to ask the petition of the Big Cheese...You know that the CEO wants the job done even more than you do, and He wants to give you what you need to make it possible.You're saying,

"Jesus ...Here's our business plan ...this is what we need Your help with. Here are the promises You've already given that guarantee that You're going to do it, so we know You will, and we're counting on that...We would like to ask for Your signature confirming that You will change these things that need changing so that we can move forward. These are the spirit helpers that...we'd like Your permission to get them going on this right away. If our business plan is sound, please approve it and help us to get rolling with it. Or if there's anything about it that we need to change to make it more effective... You're the Boss...and we're here to get...also Your instruction. Is there anything specific that You need us to do to make this happen?"

That's the concept, that's the attitude, that's the angle of professional prayer...Let's get our act together, and do our homework, and look the part, walk sharp, and come before the "throne" of our ultimate CEO with definite and clear petitions that will get outstanding results. Amen? Shall we do that? Hallelujah!

3. THE CUTTING-EDGE TECHNOLOGIES IN PROACTIVE PRAYER

(Jesus:) You could be getting so much more done, far more effectively, and with far less time and energy expended, by ... praying proactively and **(1) sending your spirit helpers to work proactively on your behalf. The spiritual weapons, the keys, and your spirit helpers are vastly superior technologically, and should be used when praying in advance...They are compelling, cutting-edge technologies,** formidable weapons, and impressive precision instruments that empower you to be a truly modern prayer professional! **Be smart and use these superior technologies every time you pray. Every time!** Use them now, and use them daily, and unlock the limitless, astonishing power of Heaven--**not just for the present, but for the future.**

if I'm going to do the great things that I want to do through you.. **(2)** pull out that **key promise book.** **(3)** Read up on how to **use praise in your prayers,** and **(4)** how to ask for things **in faith.** **(5) Fill yourselves with the Word,** because faith comes by hearing the Word. **(6) Stay close to Me** and **(7) exercise the weapon of humility,** because a broken and contrite heart I will not despise.

Every time you pray, **(8)** make sure that it's **the most powerful prayer,** **(9) the most specific prayer,** the most impossible-to-not-answer-with-less-than-a-thundering-miracle prayer, that you can pray. That's the kind of prayer I want to hear. That's the kind of prayer warrior I need you to be.

Fill your weaponry with all the power at your disposal. Fill that gun with **praise, the keys, My promises, the spirit helpers** I've given you, and **exactly what you desire.** Then **aim and fire.** That is a professional prayer!

I do look upon your desperation of heart, the level of faith you're displaying by how much you're willing to use the spiritual weapons in prayer. If you want professional results, you must use professional means.

3.1 Multitudes of Spirit Helpers

(Peter)...**You have a number of extraordinary workers** available for you to use...**These workers can engineer situations so that these people will be in the right place at the right time in the future, so they will be exactly where you will be in order to meet them, and they will be**

receptive to you... we each have these helpers in the spirit world--the kind of workers who will do more than we will ever be able to do in the flesh, and who will invest in the future today... They **are** real. They **are** here for us. More than anything, they want to help us, to work for us and with us... **They wait day after day for us to give them their instructions.** *All we have to do is to take the time to instruct them...through prayer.* Each of us has ...as many as we want and ask for...**And if we actually take the time to instruct them,... to put them to work for us in the future, then our workforce will triple or quadruple--or more.**

...by **praying for specific future needs**, we empower our spirit helpers to work in a greater way right now. That's why we need to pray proactive prayers, **letting them know what we will need** in order to be successful **in reaping the harvest of the future**...our helpers will get out there and will work specifically on those things that we have instructed them to through our targeted prayers. They're free. They're available...They're ready right now, today, to go to work.

(Jesus) "I'm standing right behind you--Me with **My team of angelic helpers and spirit beings who tower above you like giants--and we're trying to get your attention.** We're waving and shouting and whistling! We have huge modern technology in our hands, tools that you've never seen. If you'd just ask, we're ready to operate our tools on your behalf, which would make your work much easier.

I have **multitudes of angels and spirit helpers** on call to assist you... **Each has its specialty**, and all are **ready and waiting to be released through your prayers...** **The spirit helpers are an extension of Me and My Spirit.** Why not use every aid at your disposal? Why not **take advantage of the complete package of both Me and Heaven's resources and power?**

I've set before you goals. You can see the future and know what to pray for...When you **activate heavenly help** in your proactive prayers--**claiming specific goals and the mobilization of spirit beings and angels--**you're calling on **legions of highly skilled, highly trained, and highly aware individuals who do know what steps to take, where, when, and how,** and they can assist you in reaching the targeted goals.

Proactive prayer is being prepared and acting--not waiting to respond--**in each situation.** **Activating Heaven's power** through calling on spirit helpers is **completely controlling the situation.** It's **forcing the action.** It's **deciding the path.** It's causing what happens, **bending the present and future to your needs, according to My will.**

Use these methods individually to work wonders on your behalf. Use

them together for a synergistic effect, taking command of the forces of spirit and flesh through the massive amount of resources available to you.”

(Peter:) Of course...**It will take some effort on our part to pray**, but **that prayer** is the key to releasing the power of God. It's doing our part. It's "driving that kilometer" to give instructions to those who want to work with us--and who are waiting, ready, willing, and available...It's part of our work; in fact, **it's the most important part**.

We are desperate for help from the spirit world. **We need those spirit experts to work their magic in the future, so that when we arrive at that future, miracles can happen**. Things will be lined up because we lined them up in the spirit world months earlier--through our prayers. It's going to be awesome to see the Lord move on our behalf. It's going to be fantastic.

3.1.1 The Three Step Work With Your Spirit Helpers

(Peter) Those in the spirit world will work for us. They **want** to work for us! We just have to allow them to through our prayers.

(Jesus:) **Working with your spirit helpers is a piece of cake**...I'll list the three steps for you:

***First, decide what you want done..** Come up with specifics...Be specific, and be definite.

***Next, decide who you want to do it, if you know the name of the helper whose realm it is.**

...choose the worker for it--that's what they're there for, and they await your command.

***Finally, you just send them to do it, to carry out the task--**to work in hearts, to prepare the way, to influence the receptive, to line up opportunities for abundant supply, to defeat the Enemy, or whatever you want done.

If you're not sure what spirit helper you need or what their name is, then call on Me, your Heavenly Contractor, and ask Me to send the necessary spirit helper to take care of the job.

You also empower yourself and your helpers more if you claim **the keys** and make use of the other spiritual weapons when you send your helpers off to do their jobs. .. **focus on their power, praise Me for the miracles** I've done and will yet do, ask Me for **full possession** and **My heavenly thought power**, and you're not only empowering yourself but are giving extra power and spiritual tools to your spirit helpers!

Evaluate the work, choose the worker--or ask the contractor--and then send them off to do the work, with as much spiritual energy and power behind them as you can provide them with. That's all it takes, but these simple steps put all the power of Heaven at your command. Make good use of it.

3.2 A Few Key Promises

It is in My interest to have all the "props" on the world stage in proper position to assist the Family in a successful offensive, as you preach the Gospel to the world before the End comes. Claim the keys of *maneuvering*, and you will empower the forces of Heaven and command the forces of Hell to align themselves as I instruct, in order to bring My will.

My keys of *power, sustenance, miracles, supply, protection, manifestations, refreshing, healing, support, inspiration, knowledge, wisdom, love, humility, insight, tenderness, compassion*, all eagerly wait for you to reach out for them by name and use them. Just claim the key by name and pray in faith for it to come to your aid, and you will have the miracles needed

Millions for the billions, that's what you need, and I've got it for you--millions of dollars to reach billions of people! There's a key you won't forget--**the key of "millions for the billions."** If you believe it, if you mean it, if you know you need it, and you do, then you can have it.

The road before you may not be paved with gold, but it **is paved with My keys of heavenly gold.** As you claim the keys of heavenly gold, you will see My heavenly gold translated into physical needs and money as you follow the path that I have laid before you.

When I put you in a tight place, where there's no way out, it's probably because I want to bless you with a miracle. **Don't try to squirm out of it. Face My challenge head-on and claim My key of miracles, and you'll receive a jaw-dropping answer.**

I will make you ready. I will make you ready through **the key of professional preparation.** This key will prepare you to be professional prayer warriors as well as professional witnesses and winners--and those...make for an unstoppable force that will generate power, results, and

SUCCESS.

3.3. Some Financial Supply Promises

Continue to love the souls of men. Woo them to Me, and let their lives be touched by My truth, and I will continue to lead you into pleasant places and provide your every need, and even your desires. You are the bride of a King, and surely I will provide for you and will ensure that you abide in plenty and joy all the days of your life.

If I've told you that I will supply, then ***get on your knees and go after the blessing with spiritual resolve and tenacity. Wrestle in prayer until you have been granted the blessing.***

I have been telling you to reach the [influential], to push Activated, to establish your follow-up, and you will be rewarded for your efforts to put My counsel into practice. ***What will be your reward? Freedom! Freedom from the bondage to bills and debts, freedom to spend your time doing what you most want to do--your ultimate task--reaching the world, training your children, and being 100% disciples for Me, dropped out and revolutionary.***

Can you hear it? Can you hear the windows of Heaven as they swing open to shower My blessings upon you? Only **those with trusting and believing hearts will be privileged to soak themselves in this downpour of My provision and supply** for you. Only **those who have stood by Me in the toughest times** and darkest nights will be privileged to see the sunshine of this new day.

You will change, My believing children, from those who scrape manna together from the ground to those that rule over flocks and herds, every man's orchard bringing forth fruit, and every man's vineyard bringing forth new wine. I will bless and prosper you exceedingly, and feed you with the good of the land. Waver not in these times of desert, these times of manna, and soon you will have your reward.

Who is more powerful than Me? No one! **Who makes Me happiest and obeys Me the most? You do!** Who deserves My bounty the most? You do! **For whom will I then supply the most, and bless and give the most? I**

will do so for you, My faithful children, those who are doing the job, pleasing Me, and trusting fully in Me.

Who needs a pocketful of gold when you have the power of the keys? You forget, My children, that **My miracles are Heaven-sent currency to provide you with what you need and want, beyond what earthly currency can buy.** I know your needs, and I will fulfill them. **Expect My miracles, and you will see them. As you obey and roll away every stone, I will do every needed miracle.**

Many of the miracles of supply that I have for your future are built on the farming technique. *I supply you with the seeds, tools, and fertile ground, and you work the ground so that you have a regular harvest that you can count on.* You still have to do the "venting," and I still have to do the miracle of making the crops grow, but the miracle will also be a miracle of stability--supply that you can count on.

You've got to **reach out and receive My blessings.** *Often that reaching out requires some action on your part in the physical.* Ask Me to show you your part, because **I'm just waiting for you to open your hands to receive.** I can't wait to provide for you! *Prayer on its own is not enough.* That's part of receiving My supply, but *then comes putting feet to your prayers.* You've got to step out on the water *and put Me on the spot.* I'm always so happy when you do that, because that's My cue--that's when I get to do My favorite part: supplying!

Praise your way to riches, My loves. **Praise your way to supply.** You've heard of My children winning battles through praise, but you will soon hear of and experience testimonies of gaining abundant supply through praise. **Praise** is a weapon that will unleash the power of Heaven. It **will deposit the riches of Earth into your pockets**, as you praise your way to wealth.

Follow My footprints right to the most needy and spiritually destitute people of the world--the rich and influential. **I walked into the homes of the upper class when I was on Earth**, and found them to be desperate, needy, and just as lost as anyone else. **I ministered to them, and they in turn protected Me, gave to Me, watched out for Me, and served Me.**

Building a church of believers and asking them to support you and give to you takes time and effort...It's a change, and change takes time.

But ***building a church of kings and supporters is the way of the future.*** Those who build a solid support base will never lack, through lean or mean times... There will always be those with something to give, and **the more faithfully you've given to them, the more happily and abundantly they will give back to you.**

Most businesses and corporations in the world spend years advertising and building customer confidence in order to be successful and move from the red into the black. It takes a good solid foundation of believers in their product before they can grow and be successful. **It takes time, and it definitely doesn't happen overnight.** Likewise, the sooner you start building a church of supporters and believers, the sooner you'll become financially stable, and thus be able to produce and grow. It's the law of nature and the law of My Spirit for you, My brides.

I've got it all waiting for you to ask for it. **Just reach out your hands of faith and grab the blessings by the horns, and don't let go until it's in the bank.**

4. CONCLUSION: You Begin This Charge

(Jesus:) This is the battle for the preaching of the Gospel of the Kingdom to all the world for a witness before the End can come. This is the last rally, the last chance for people to decide for Me or against Me. This is the battle that will deal such a blow to Satan, which will let him know that his end is near.

I am with you as you launch the attack. You seem so few in number, so weak, so inadequate, so busy... Yet, be not afraid, because there are many that are with you in spirit. This is not an offensive only for the Family. This is an offensive of the spiritual realm as well. **I am personally leading the troops to battle so that we can help you to do what must be done, so that the End can come.**

This is what you have been preparing for in all your days of preparation. This is what you have been training for in all your days of training. This is what you have been strengthened for in all your days of strengthening. **This is when the power that I have stored for you will be released.** This is when the keys will glow hot in your hands and will accomplish the purpose for which I have sent them. This is when you will make disciples of all nations and will bear My name before kings. This is the full realization of your era of action.

This is when your lives will find their highest purpose, and when you will do your greatest works. This is when the spiritual and physical realms will merge ever so closely, as I have promised. This is when you will earn an abundance of stars for your crown and reap the final harvest that you have been put here to reap.

Up above you are the uncounted legions of Heaven. **I am going to lead this attack, as I have said, and prepare the path ahead of you so that you can run, reap, and win. I am going to make it happen.**

There are angels of provision, angels of witness, angels of miracles, angels of healing, spirit helpers of revelation, and mighty armies of devastation waiting to confront Satan and his minions in the spirit and on Earth. There is no hesitation in My warriors' eyes. They too are trained and prepared and have waited long years for this day, this offensive.

They are willing and they are ready. Each one knows their duty and each one is especially assigned to influence situations on your behalf, to remove obstacles, to pour out power, to grant miracles, to give instruction, to prepare souls, to rebuke demons, and on the list goes. **This spiritual army waits to go to war for you!**

The battlefield is set, **the armies await, and the quiet before the storm pervades all.** You look to Me, but there is no call from My lips to attack. There is no rallying cry to charge. I am silent. Why is this? Because, My loves, **it is you, not I, that control this army of the spirit. You begin this charge.** All that I have promised to do for you spiritually, I will do, if only you will command Me.

Through the simple act of desperate prayer that holds Me to an accounting of the performance of My promises, **you release these forces and you start the battle.** *Long before you set foot on the field of engagement, My forces will already have prepared the path ahead. Long before you face the hungry souls that need Me, My legions will have prepared them to receive your words. Long before you approach people for the help and services that you need to continue, My competent spirit beings will have already influenced their hearts for good toward you. Long before you meet obstacles, My helpers will have already prepared the way for you to overcome them easily. Before you meet with opposition, My fighters will have already crippled the Enemy's efforts to stop or hinder you. But My army goes nowhere without your command. You command these forces. Do you understand?*

...We hold so much power, and the only condition is that you pray and

release us, that you **believe that we are here and that we will work for you if only you will set us free.** *So much is not accomplished because of your unbelief, so strive to believe.*

Face this battle as ***the true-to-the-core spiritual soldier you were created to be.*** You're not called to take up a sword or spear and face the foes in the flesh. **You're called to pray, to command the spiritual through your faith. Can you do it?** Can you release this mighty army...? Can you begin the battle? All Heaven waits on you. **The angels look your way in expectant reverence, just waiting for the command from your lips. Don't disappoint My forces**

...Let your prayers shake the foundations of Hell and open the gates of Heaven. Let it be said throughout every sphere of My creation that the children of David, as few in number as they were, sent up such a desperate cry for divine help that power was unleashed on that day such as has never been seen!

Leave no part of your heart unlifted to Me...If you want to see power, if you want to see miracles, if you want to see the End, if you want to see My coming, then **pray as you have never prayed before! Claim that My power will go forward. That is the only way that we will march on your behalf.**

We will act if only you will pray. If you want to see every promise of Mine fulfilled, then pray. Yes, you rest in Me. Yes, you depend on My power. Yes, you trust in My strong arm--but **there is one simple thing that I ask of you, and that is your prayers. Give them now in the fullest, deepest measure you can muster.**...Let each one *show Me that they belong in this army* and that they belong on this battlefield *through the depth and strength of your prayers.*

...If you are a warrior, show Me now! Save nothing...If you can succeed in mustering enough heart and soul in beseeching Me to work for you, then you will start the snowball of heavenly power that will be unstoppable. **This is the time...If you win this battle of prayer, then you will coast to the very End on a wave of My power.**

I don't control the destiny of this planet--you do. You few feeble ones control the unwritten history of Earth through your prayers. If you successfully launch this offensive, then the End will come more quickly... So much rides on this moment. **Success or failure is not determined through your actions, but through your prayers...Launch the attack in prayer!**

I am waiting for your response. I have given every promise...**The fate of the world is in your hands.**

So think ahead. Live ahead. Fight ahead. Bomb ahead. Advance

ahead. Move ahead. Create ahead. Strengthen ahead. Ask the Lord to open your spiritual eyes and to help you to see the Family's future as **He** sees it. **Ask Him to give you a clear focus, a definite picture in your mind of what the Family needs to be years from now**, of what laborers you'll need by then, and how to reach and win and train and strengthen them--**and then make it happen through your prayers.**

Get passionate about being part of the Lord's goals and plans for the future of the Family. **Let the Family's glorious future be what you think, breathe, and live for. Pray for it. Expect it. Make it happen.** That's proactive prayer.
